And now a word from our Convention Committee Chair...

“Chiropractic from Cradle to Grave”, has been a mantra for our profession for decades. So we at the GCC wanted to put together a CE program that reflected that spirit while offering knowledge and excitement. We have assembled the leading lecturers in chiropractic so that you come away with much more than just your required hours. You come away with cutting edge information that you can use in your office the next day after you attend the program.

And because we honor the important work you do in your office, you do not have to close on Friday to get your required 20 hours! The GCC has thought of your success when scheduling a program that gets you all your hours on Saturday and Sunday without having to shut down your office on Friday! So join us August 21 and 22 for the most exciting and enlightening chiropractic program that also gets you your hours.

Where success and the principle lives,
