**3. General Comments and/or Rationale for the proposed modification (if applicable):**

The educational standards for the chiropractic profession should provide a clear and concise definition of the requirements for a DCP in order to ensure continued standardized testing and licensing procedures throughout the 50 states. The freedom to arbitrarily grant accreditation to "equivalent" programs exceeds the authority granted by the Department of Education and has the potential of significantly confusing the public, future students and adding significant costs to the education process

**4. Proposed modification (Optional)**

**A. Current version; FROM the following (if location of proposed revision needs clarity):**

This document presents the process and requirements for The Council on Chiropractic Education (CCE) accreditation of Doctor of Chiropractic degree programs (DCPs) or their equivalent (as determined by CCE) in accordance with the Council's Vision and Mission.

**B. Proposal; TO the following (use attachment if necessary):**
